Clean and disinfect safely

Safe and precise

Dreumex Disinfectant & Cleaning Wipes Blue

Proper cleaning and disinfecting in the food industry is essential to prevent contamination and protect consumer health. Ensuring employees have the right tools and follow strict hygiene practices is key to maintaining product safety and safeguarding your reputation.

Fit for purpose

Ideal format (130 x 140 mm) for cleaning and disinfecting small, hard surfaces and tools in the food industry

Safe

Contain no bleach, chlorine, alcohol, aldehyde, or VOC, ensuring they are safe for use on hard, non-porous surfaces

Food industry approved

PT2 and PT4 rated, making them ideal for maintaining hygiene in food processing environments*

Effective germ removal

Eliminate bacteria, yeasts, and enveloped viruses while effectively removing dirt from surfaces

Time-saving

Surfaces should remain wet for 2 minutes after wiping, with no need for post-rinsing, providing a time-efficient cleaning process
