Monk® Disinfectant Wipes

One-Step Disinfectant / Sanitizer

Advantages

- Kills COVID-19 virus
- One-step disinfectant and deodorizer that is effective against a broad spectrum of bacteria
- Free of bleach and ammonia
- Strong wipe for heavy duty cleaning
- Effective Against: Staph, E. coli, HIV-1, the presence of 5% serum contamination, MRSA, cold and flu viruses, cross-contamination and much more

Usage:

- Disinfect hard, nonporous, non-food surfaces
- Safe for equipment used in fitness, office and healthcare facilities
- Athletic mats used for exercise, wrestling and gymnastics
- Finished floors, sinks and tubs
- Federally inspected Meat & Poultry Plants as a disinfectant on all surfaces in inedible product processing areas, non-processing areas and/or exterior areas
- When cleaning nonporous food contact surfaces, personal safety protection equipment and children's toys, rinse with clean, potable water after disinfecting

100.000%

Efficacy Claims

Bacteria:

- | | |
|--|--|
| • Staphylococcus aureus (Staph) | • Serratia marcescens (Serratia) |
| • Salmonella enterica (Salmonella) | • Shigella dysenteriae (Shigella) |
| • Pseudomonas aeruginosa (Pseudomonas) | • Staphylococcus aureus - Community Associated Methicillin-Resistant (CA-MRSA)(NRS384)(USA300) |
| • Campylobacter jejuni (Campylobacter) | • Staphylococcus aureus - Community Associated Methicillin-Resistant (CA-MRSA)(NRS123)(USA400) |
| • Burkholderia cepacia | • Staphylococcus aureus - Methicillin-Resistant (MRSA) |
| • Enterococcus faecalis - Vancomycin Resistant (VRE) | • Staphylococcus aureus - Multi-Drug Resistant |
| • Escherichia coli (E. coli) | • Staphylococcus aureus - Vancomycin Intermediate Resistant - (VISA) |
| • ESBL Escherichia coli - (Extended spectrum beta-lactamase producing E. coli) | • Streptococcus pyogenes (Strep) |
| • Klebsiella pneumoniae (Klebsiella) | • Vibrio cholerae |
| • Legionella pneumophila | |
| • Listeria monocytogenes | |
| • Salmonella schottmuelleri (Salmonella) | |
| • Salmonella typhi (Salmonella) | |

Viruses:

- | | |
|--|--|
| • *Hepatitis B Virus (HBV) | • *Respiratory Syncytial Virus (RSV) |
| • *Hepatitis C Virus (HCV) | • *Rotavirus |
| • *Herpes Simplex Virus Type 1 | • *SARS Associated Coronavirus (SARS) (cause of Severe Acute Respiratory Syndrome) |
| • *Herpes Simplex Virus Type 2 | • *SARS-Related Coronavirus 2 (SARS-CoV-2) (cause of COVID-19) |
| • *HIV-1 (AIDS Virus) | • *Vaccinia Virus |
| • *Human Coronavirus | |
| • *Influenza Type A Virus / Brazil (Influenza) | |

Animal Viruses:

- | | |
|-------------------------------------|-----------------------------|
| • Avian Influenza A (H3N2) | • Canine Distemper Virus |
| • Avian Influenza A (H5N1) | • Newcastle's Disease Virus |
| • Avian Infectious Bronchitis Virus | • Pseudorabies Virus |

Case Study

The need for disinfecting at the Hempfield Rec Center is critical, with over 700 visitors to the facility on a daily basis who range from very small children to the elderly. Visitors come in contact with surfaces that are heavily used on a daily basis thus increasing the chances of spreading viruses and bacteria. To fight the growth of viruses and bacteria the facility implemented disinfecting stations that included a disinfecting solution in a spray bottle and a roll of paper towels. Overtime it became clear that this was not a viable solution as the visitors would spray the solution in close quarters where others were exercising and working out. The disinfecting solution was also impacting the equipment in the fitness areas as it would rust the metal components contained on

each machine being wiped down. At this point the facility had to make a change that as they stated is “a better solution to take care of member and facility needs.”

Since switching to the Monk® Disinfectant Wipes the facility has received nothing but positive feedback from their members and not to mention the ease of use on all equipment. Members have expressed their satisfaction with the convenience of the wall mount dispenser, that allows the user to easily dispense one wipe at a time. The members have also noticed that the wipe offers a much more thorough cleaning versus the previous spray solution. Most importantly the facility has received no reports of outbreak in any form during the time Monk® Disinfectant Wipes were used.

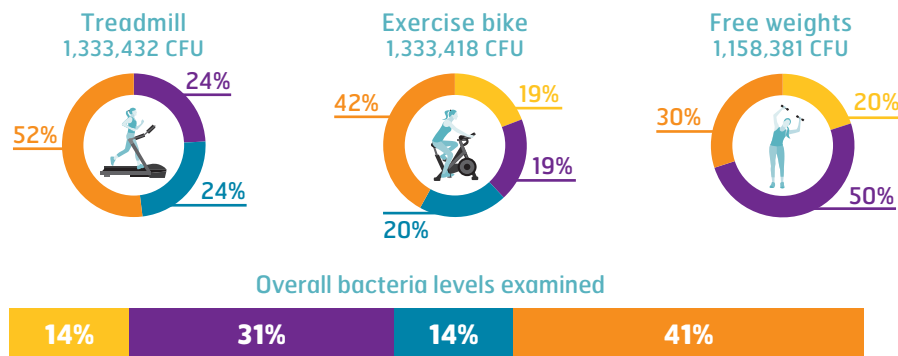

Facility

The Hempfield Rec Center is located in Landisville, Pennsylvania and serves as the areas premiere sports and wellness facility. The rec center is home to indoor and outdoor aquatic centers, multiple tennis courts and a fitness center that includes aerobic, dance and cycling studios. The facility is also home to the Monk® family of Disinfectant Wipes which are spread throughout the facility in 13 different locations.

Bacteria levels per gym equipment type

All values are the average of three gyms in colony-forming units (cfu) per square inch

● Gram-positive cocci	Most common cause of infections and a frequent cause of pneumonia and septicemia.
● Gram-negative rods	90-95% are harmful to humans and can be resistant to antibiotics.
● Gram-positive rods	Tend to not be harmful to humans, although there are a few exceptions.
● Bacillus	Found throughout nature, most notably in soil, with strains that are both harmful and helpful in humans.

How do the gym's bacteria levels compare to other items?

39 Times

more bacteria than a plastic reusable cafeteria tray
33,800 CFU

362 Times

more bacteria than a toilet seat
3,200 CFU

74 Times

more bacteria than a water faucet
18,000 CFU

Disinfectant Wipes 80ct

Monk® 80ct Disinfectant Wipes are ideal for areas where space is limited but cleaning is crucial. The wipe is easily dispensed and ready to use.

Article Number 50600803001 (6 pcs)
50600803002 (12 pcs)

Metal Bracket 80ct

Monk® 80ct Metal Bracket provides easy access to dispensing Monk® Disinfectant Wipes. Ideal for areas where disinfecting is common but space is limited. Bracket securely holds canister in place.

Article Number 99900803001 (1 pc)

Disinfectant Wipes 800ct

Monk® 800ct Disinfectant Wipes are the complete package for high traffic areas with an all-in-one cleaning wipe and dispenser bucket. The wipe is easily dispensed and ready to use.

Article Number 50608003001 (2 pcs)

Metal Stand 800ct

Monk® 800ct Metal Stand provides a solution in high traffic areas where large amounts of wipes are used. The 2 tier stand allows for wipes to be dispensed from the top and discarded in the bottom.

Article Number 99908003002 (1 pc)

Disinfectant Wipes 800ct Refill

Monk® 800ct Disinfectant Wipe Refills are suitable for high traffic areas where a dispenser is needed. The refill can be placed in a bucket or used with any of the various dispensers. The wipe is easily dispensed and ready to use.

Article Number 50608003002 (2 pcs)
50608003003 (4 pcs)

Wall Mount 800ct

Monk® 800ct Wall Mount Dispenser provides the ability to store a large amount of wipes in areas where space is limited. Monk® Disinfectant Wipes are easily dispensed through the top of the dispenser and are easy to refill once empty.

Article Number 99908003013 (1 pc)

Stainless Steel Stand 800ct Starter Kit

The Monk® 800ct Starter Kit is the ideal product for any situation where dispensing of disinfectant wipes is highly important. The package includes a 800ct bucket and stainless steel stand that offers a very attractive appearance. Disinfecting wipes are dispensed through the top of the stand and discarded in the waste receptacle below.

Article Number 99908003005 (1 pc)

Stainless Steel Stand 800ct

Monk® 800ct Stainless Steel Stand offers an attractive design that makes for an ideal addition to any setting where appearance is highly valued. Monk® Disinfectant Wipes are dispensed through the top of the stand and discarded in the waste receptacle below.

Article Number 99908003003 (1 pc)

Stainless Steel Tabletop 800ct Starter Kit

The Monk® 800ct Stainless Steel Tabletop Starter Kit is designed with professional environments in mind. This polished dispenser is ideal for saving valuable floor space while still accommodating areas of high use and frequent touchpoints. The package includes a 800ct refill and stainless steel tabletop dispenser.

Article Number 99908003014 (1 pc)

Stainless Steel Tabletop Dispenser 800ct

The Monk® 800ct Stainless Steel Tabletop Dispenser is designed with professional environments in mind. This polished dispenser is ideal for saving valuable floor space while still accommodating areas of high use and frequent touchpoints. With branding featured on the dispenser, users are confident in knowing what product they are using. A silicone nozzle provides effective tension for hassle-free wipe dispensing.
